Volume XIV, Number 3

It's out...

and bigger than ever!

The 1952 annual volume of THE NEW YORK TIMES INDEX is just off the press...and packed with a record-breaking number of news references.

It's the librarian's guide to over 525,000 separate news items published in The New York Times last year. This tremendous volume of news is organized for easy reference under thousands of different subject and geographical headings...and under tens of thousands of names of individuals, institutions, organizations and companies.

The important events of 1952 are *summarized*—and every news reference is *dated* to show when the story ran in The New York Times, or when it may have appeared in any other newspaper you keep on file.

The 1952 Volume of THE NEW YORK TIMES INDEX is printed on long-lasting rag paper...attractively bound in library buckram...and priced at only \$35 in the U. S. and U. S. Possessions (\$36 elsewhere).

If your library hasn't arranged to receive this time-saving guide to the news of 1952, *now's the time* to place your order. Almost the entire press run is being mailed to our list of subscribers to the complete NEW YORK TIMES INDEX service. There won't be many copies left.
